PROFESSIONAL STETHOSCOPE

Cardio prestige II SINGLE CHESTPIECE

The excellence.

With its heavy chestpiece equipped with 'premium acoustic' technology, the new Cardio prestige II stethoscope provides the best results.

PREMIUM ACOUSTICS

Precision-machined, the new design for the CARDIO PRESTIGE II receiver is inspired by musical instruments such as the French horn. Its flared shape allows sound waves to be captured better.

STAINLESS STEEL CHESTPIECE

Stainless steel offers the best acoustic properties, so it was selected for use in the chestpieces for the CARDIO PRESTIGE II stethoscopes. In addition, we increased the thickness where necessary in order to refine the acoustics.

ADAPTED TO CUFFS

Adapted to the cuffs, the CARDIO PRESTIGE II stethoscopes are designed with thin edges, perfectly matching the ends of the tensiometer cuff.

FLOATING MEMBRANE

Present on both chestpiece:

- Light pressure to hear low frequencies
- Firm pressure to hear high frequencies

OVERSIZE TUBE

The CARDIO PRESTIGE II is equipped with a wide double-duct tubing and is perfectly insulated against noise.

DESIGNATION

● Cardio Prestige® II stethoscope single chestpiece

REFERENCE

506 010

SPENGLER QUALITY

CE mark

European directive 93/42/CEE : stethoscopes: class I. The Spengler stethoscopes comply with the stipulations of the guidelines for safety, health, hygiene and protection of the environment.
